SECTION .1400 - SPACE REQUIREMENTS

10A NCAC 09 .1401 INDOOR SPACE

(a) Indoor space on which licensed capacity is based will be referred to as "primary space". The licensing consultant will measure all primary space that will routinely be used by children who attend the center, except that the following will not be included: closets, hallways, storage areas, kitchens, bathrooms, utility areas; thresholds, foyers, space or rooms used for administrative activities or space occupied by adult-sized desks, cabinets, file cabinets, etc.; single-use rooms, including music rooms, isolation/sick rooms, gymnasiums, dining rooms, sleep rooms; any floor space occupied by or located under equipment, furniture, or materials not used by children; and any floor space occupied by or located under built-in equipment or furniture.

- (1) Any single-use room used by the children for sleeping only, either during nap time or any other time, will also be measured by the Division's representative to assure that the available floor space provides 200 cubic feet of air space per child for the maximum number of children who will sleep in that room at any time.
- (2) All measurements will be rounded off to the nearest inch.
- (3) Total space on which the licensed capacity is based will be the sum of the measurements of all primary space to be used by the children. However, no room will routinely be occupied by more children than the primary space in that room will accommodate at 25 square feet of space per child. This is not meant to preclude grouping children together periodically for special activities, such as to view films or slides; for special presentations, such as puppet or magic shows, a special story teller, a discussion of safety practices by a fireman or nurse, etc. However, care must be taken to assure that during such special activities, the room used is not so overcrowded that the children and staff would be endangered in case of a fire or other emergency necessitating evacuation of the center.

(b) For centers with a licensed capacity of three to 12 children located in a residence, the dining area of a kitchen may be counted if it is routinely used for children's activities in addition to eating.

(c) Paragraph (a) of this Rule shall apply only to child care centers initially licensed on or after February 1, 1985.

10A NCAC 09 .1402 OUTDOOR SPACE

(a) When a center is licensed for six to twenty-nine children, inclusive, there shall be 75 square feet per child outdoor play area for the total number of children for which the center is licensed. In addition, the total number of children on the playground shall not exceed the number the space will accommodate at 75 square feet per child.

(b) When a center is licensed for 30 or more children, there shall be 75 square feet per child of outdoor play area for at least one-half of the total number for which the center is licensed, provided that the minimum amount of space on the outdoor play area shall be enough to accommodate at least 30 children.

(c) Paragraphs (a) and (b) of this Rule apply only to child care centers initially licensed after April 1, 1984.

- (d) The outdoor play area shall provide an area that is shaded by a building, awnings, trees, or other methods.

10A NCAC 09 .1403 AQUATIC ACTIVITIES

- (a) This Rule applies to children and staff in child care centers that participate in aquatic activities.
- (b) The requirements in this Rule apply to aquatic activities, which are defined as activities that take place in, on, or around a body of water such as swimming, swimming instruction, wading, visits to water parks, and boating. Aquatic activities do not include water play activities such as water table play, slip and slide activities, or playing in sprinklers.
- (c) For every 25 children in care participating in aquatic activities, there shall be at least one person who has a life guard training certificate issued by the Red Cross or other training determined by the Division to be equivalent to the Red Cross training, appropriate for both the type of body of water and type of aquatic activities. These lifeguards shall not be counted in the required staff-child ratios referenced in Paragraph (d) of this Rule.
- (d) Children under the age of three shall not participate in aquatic activities except, to the extent necessary, to implement any child's Individualized Family Service Plan (IFSP) or Individualized Education Program (IEP).

Age of Children	Ratio Staff/Children
3 to 4 Years	1/8
4 to 5 Years	1/10
5 Years and Older	1/13

Notwithstanding the staff-child ratios, at no time shall there be fewer than two staff members supervising the aquatic activity.

- (f) Children shall be adequately supervised by center staff at all times while participating in aquatic activities. Adequate supervision means that half of the center staff needed to meet the staff-child ratios in Paragraph (d) of this Rule is in the water and the other half is out of the water. If an uneven number of staff are needed to meet the required staff-child ratios, the majority shall be in the pool. Staff shall be stationed in pre-assigned areas that will enable them at all times to hear, see, and respond quickly to the children who are in the water and children who are out of the water. Children shall not enter the water before center staff are stationed in their pre-assigned areas. Center staff shall devote their full attention to supervising the children in their pre-assigned areas of coverage and shall communicate with one another about children moving from one area to another area.
- (g) Prior to children participating in aquatic activities, the center shall develop policies that address the following:
 - (1) aquatic safety hazards;

- (2) pool and aquatic activity area supervision including restroom or changing room use;
 - (3) how discipline is handled during aquatic activities; and
 - (4) the facility's specific field trip and transportation policies and procedures.
- (h) Before staff first supervise children on an aquatic activity, and annually thereafter, staff shall sign and date statements that they have reviewed:
- (1) the center policies as specified in Paragraph (f) of this Rule;
 - (2) any specific guidelines provided by the pool operator or other off-site aquatic facility; and
 - (3) the requirements of this Rule.
- The current statement shall be maintained in the staff person's personnel file for one year or until it is superseded by a new statement.
- (i) Any outdoor swimming pool which is located on the child care facility premises shall be enclosed by a fence and shall be separated from the remaining outdoor play area by that fence.
- (j) Swimming pool safety rules shall be posted in a prominent place visible to children and staff for any swimming pool located on the child care facility premises. These rules shall state:
- (1) the location of a first-aid kit;
 - (2) that only water toys are permitted;
 - (3) that children shall not run or push one another;
 - (4) that swimming is allowed only when an adult is present; and
 - (5) that glass objects are not allowed.
- (k) All swimming pools used by children shall meet the "Rules Governing Public Swimming Pools" in accordance with 15A NCAC 18A .2500 which are incorporated by reference, including subsequent amendments. A copy of these Rules is on file with the Division of Child Development, 319 Chapanoke Road, Raleigh, NC 27603, or may be obtained at no cost by writing the North Carolina Division of Environmental Health, 1630 Mail Service Center, Raleigh, NC 27699-1630.
